### Specs

- Multiple ARM Cortex processors
- Type-C USB connector (with MicroUSB to Type-C)
- 450mAH lithium ion battery
- LED to indicate power & Bluetooth state
- Fold/Tilt/Swivel/Lock design
- Embossed Case, Cable with 3.5mm jack
- USB Li-Ion battery charger
- Up to 6 hours battery life if used continuously
- 3-Axis Accelerometer
- High end Codec
- Red Light Lasers
- Biometric sensors
- Microphone
- High end speakers

## Experience Wave Resonant Acoustics

### Custom GPT Development

Our proprietary GPT framework, including supervisory custodian, allows us to work with you to develop proprietary GPT based training sessions. The custodian ensures that GPT remains on subject and that content, training, queries and testing will correspond to your organization's training model.
